Show Copy

"The world's supplies of happiness are running low and the HAPPINESS COLLECTORS need your help to top them up"

The Happiness Collectors need YOU! Pop on your headphones and join the Happiness Collectors on a journey of sounds and silliness to learn the best ways to collect happiness - and most important of all, how to pass it on!

Happiness Collectors is a fusion of physical theatre and audio-immersive storytelling for family audiences. Each audience member experiences the show through a set of wireless headphones, guided by their very own Happiness Collector Instructor, SAM, aka Special Agent M.

Audiences

Happiness Collectors is for young people aged 4+, and their families. The show is best enjoyed in groups, with whole families taking part in the experience. Happiness Collectors works very well in educational settings, especially when whole classes take part together.

Audience Feedback:

"It's the first children's show I've seen that really gets them to engage with their thoughts and think about how they're feeling"

"I've not smiled that much in a long time"

"This is the show I didn't know I needed"

The Experience

All audience members get their own set of wireless headphones for the duration of the performance. The performance is interactive and audience participation is encouraged and guided by the live performer. Audiences can expect a highly energetic performance, where they are immersed into sonic worlds full of mystery, magic, fun and silliness.

The show explores themes of wellbeing, mindfulness and resilience, as well as encouraging active participation and stimulating imagination. We finish the performance with a call to action for the audience to continue collecting and sharing happiness wherever they go.

At the end of the performance, every audience member receives their very own Happiness Collector badge for officially completing their Happiness Collector training.

For audiences with additional support needs, we supply a 'What To Expect' document in advance of the performance. Happiness Collectors is very visual and can be enjoyed as a relaxed performance. Each Headset has adjustable volume, meaning we can tailor the experience for audience members with sensitivity to sound.

Touring & Technical Requirements

- Tours with a team of 3
- Self Sufficient Technical Set Up
- Indoor or Outdoor Performance Options
- No Stage Lighting Required
- No Power Supply Required
- Playing Space of 3m x 3m
